

Datasheet: AHP2833B

BATCH NUMBER 153935

Description:	RABBIT ANTI FERRET IFN GAMMA:Biotin
Specificity:	IFN GAMMA
Format:	Biotin
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	■			0.05 ug/ml - 0.5 ug/ml

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Ferret
Product Form	Purified IgG conjugated to Biotin - liquid
Antiserum Preparation	Antiserum to ferret IFN gamma was raised by repeated immunization of rabbit with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	Recombinant ferret IFN Gamma
External Database Links	UniProt:

Specificity **Rabbit anti Ferret IFN Gamma** recognizes ferret interferon gamma (IFN gamma).

IFN gamma known previously as macrophage activating factor, belongs to the type II interferon family and is produced by activated T lymphocytes and NK cells.

IFN gamma is a multipotent cytokine, has a broad range of regulatory functions during virus induced host immune responses. IFN gamma promotes a Th1-type immune response in CD4+ and CD8+T cells and influences differentiation of T cells ([Ochi et al. 2008](#)).

ELISA This product may be used as a detection reagent in a sandwich ELISA together with [AHP2833](#) as the capture reagent. [PFEP001](#) may be used as a standard.

Storage Store at +4°C. DO NOT FREEZE.

This product should be stored undiluted. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee 12 months from date of despatch
