

Datasheet: AHP2993B

Description:	GOAT ANTI RABBIT IP-10:Biotin
Specificity:	IP-10
Other names:	CXCL10
Format:	Biotin
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 µg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			0.01ug/ml - 0.5ug/ml
Immunoprecipitation			▪	
Western Blotting			▪	

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Rabbit
Product Form	Purified IgG conjugated to Biotin - liquid
Antiserum Preparation	Antisera to rabbit IP-10 were raised by repeated immunisation of goats with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml

Immunogen Recombinant rabbit IP-10 (CXCL10)

Specificity

Goat anti Rabbit IP-10 antibody recognizes rabbit (lapine) interferon gamma-inducible protein 10 (IP-10), also known as CXCL10, a 10.82 kDa protein belonging to the chemokine CXC family. IP-10 is expressed in a variety of tissues including liver, gut, spleen, kidney and thymus, in response to interferon gamma stimulation.

IP-10 acts as a chemoattractant for monocytes, NK cells and certain T-cells.

ELISA

This product may be used as a detection antibody in a sandwich ELISA together with [AHP2993](#) as the capture reagent. [PRABP007](#) may be used as a standard.
