

# Datasheet: AHP3000 BATCH NUMBER 161235

Description:	RABBIT ANTI POLRMT
Specificity:	POLRMT
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	50 μΙ

# **Product Details**

### **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

	Yes	No	Not Determined	Suggested Dilution
Immunoprecipitation	•			1/50 - 1/100
Western Blotting	-			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG - liquid

Antiserum Preparation Antiserum to POLRMT was raised by repeated immunization of rabbits with highly purified ...

antigen

Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.02% Sodium Azide 50% Glycerol
Immunogen	Recombinant fusion protein containing a sequence corresponding to amino acids 42-230 of human POLRMT (NP_005026.3)

OF HUMAN FOLKINT (NP\_003020.3)

**Specificity** Rabbit anti POLRMT antibody recognizes DNA-directed RNA polymerase,

mitochondrial, also known as MtRPOL, MTRNAP, and APOLMT.

POLRMT is a mitochondrial RNA polymerase absolutely required for expression of mitochondrial genes, and required for replication of the mitochondrial genome (Kühl et al. 2016). Evidence does not support the existence of a nuclear isoform of POLRMT,

suggesting that its role is exclusively mitochondrial (Kühl et al. 2014).

Storage Store at -20°C

Storage in frost-free freezers is not recommended.

This product should be stored undiluted. Avoid repeated freezing and thawing as this may

denature the antibody. Should this product contain a precipitate we recommend

microcentrifugation before use.

Guarantee 12 months from date of despatch
