

## Datasheet: AHP3007

<b>Description:</b>	RABBIT ANTI PHF6
<b>Specificity:</b>	PHF6
<b>Format:</b>	Purified
<b>Product Type:</b>	Polyclonal Antibody
<b>Isotype:</b>	Polyclonal IgG
<b>Quantity:</b>	50 µl

### Product Details

#### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/500 - 1/2000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

#### Target Species

Human

#### Species Cross Reactivity

Reacts with: Mouse

**N.B.** Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

#### Product Form

Purified IgG - liquid

#### Antiserum Preparation

Antiserum to PHF6 was raised by repeated immunization of rabbits with highly purified antigen

#### Buffer Solution

Phosphate buffered saline

#### Preservative Stabilisers

0.02% Sodium Azide  
50% Glycerol

#### Immunogen

Recombinant protein of human PHF6

---

**Synonyms**

KIAA1823

---

**Specificity**

**Rabbit anti PHF6 antibody** recognizes PHD finger protein 6, also known as CENP-31, BFLS, BORJ and KIAA1823.

The gene encoding PHF6 is located on the x-chromosome, and mutations cause Borjeson-Forssman-Lehmann Syndrome, a rare disease characterized by features including intellectual disability, developmental delay, and epilepsy (Mangelsdorf et al. 2009). PHF6 is a tumor suppressor, and a negative regulator of hemopoietic stem cell (HSC) self-renewal (McRae et al. 2019). Therefore, mutations that inactivate PHF6 gene function have also been implicated in hematological malignancies (Miyagi et al. 2019).

---

**Storage**

Store at -20°C  
Storage in frost-free freezers is not recommended.  
This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

---

**Guarantee**

12 months from date of despatch

---

**Health And Safety  
Information**

Material Safety Datasheet documentation #10049 available at:
