

Datasheet: AHP3025

BATCH NUMBER 160730

Description:	RABBIT ANTI HUMAN ACTL6B
Specificity:	ACTL6B
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			1/250 - 1/500

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG - liquid
Antiserum Preparation	Antiserum to human ACTL6B was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.035% Sodium Azide (NaN ₃) 30% Glycerol
Carrier Free	Yes
Immunogen	A peptide within the N-terminal region of human ACTL6B

Synonyms ACTL6, BAF53B

Specificity **Rabbit anti Human ACTL6B antibody** recognizes actin-like protein 6B.

ACTL6B is a member of a family of actin-related proteins (ARPs). ARPs are involved in a number of cellular processes, including chromatin remodelling, vesicular transport, and nuclear migration. ACTL6B is important for c-Myc oncogenic activity ([Park et al. 2002](#)). ACTL6B is a subunit of the BAF (BRG1/brm-associated factor) complex in mammals, which is thought regulate expression of genes in brain tissue via structural remodelling of their chromatin ([Marcum et al. 2020](#)).

Rabbit anti Human ACT6B antibody detects a band of 50 kDa.

Storage This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee 12 months from date of despatch
