

Datasheet: AHP3085

BATCH NUMBER 160778

Description:	RABBIT ANTI MOUSE NANOG
Specificity:	NANOG
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Western Blotting	▪			0.5 µg/ml - 2 µg/ml
Immunofluorescence	▪			1/200
Chromatin Immunoprecipitation	▪			5 µl per ChIP

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species

Mouse

Species Cross Reactivity

Reacts with: Human
N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Purified IgG - liquid

Antiserum Preparation

Antiserum to mouse NANOG was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.

Buffer Solution

Phosphate buffered saline

Preservative

0.035% Sodium Azide (NaN₃)

Stabilisers	30% Glycerol
Carrier Free	Yes
Immunogen	A peptide within the N-terminal region of mouse NANOG
External Database Links	<p>UniProt: Q80Z64 Related reagents</p> <p>Entrez Gene: 71950 Nanog Related reagents</p>
Synonyms	Ecat4, Enk
Specificity	<p>Rabbit anti Mouse NANOG antibody recognizes homeobox protein NANOG, otherwise known as homeobox transcription factor NANOG.</p> <p>NANOG plays a role in the proliferation and self-renewal of embryonic stem (ES) cells and prevents their differentiation towards extraembryonic endoderm and trophectoderm lineages (Barral et al. 2019). Overexpression of NANOG has been shown to promote cells to enter into S phase and proliferation (Sainz de Aja et al. 2019).</p>
Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended. Should this product contain a precipitate we recommend microcentrifugation before use.</p>
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10049 available at: https://www.bio-rad-antibodies.com/SDS/AHP3085 10049
Regulatory	For research purposes only
