

Datasheet: AHP377

BATCH NUMBER 152173

Description:	RABBIT ANTI DYNORPHIN B (aa1-13)
Specificity:	DYNORPHIN B (aa1-13)
Format:	Serum
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen	▪			1/250 - 1/2500
Immunohistology - Paraffin			▪	
ELISA			▪	
Immunoprecipitation			▪	
Western Blotting			▪	
Radioimmunoassays	▪			1/5000

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

Target Species

Pig

Species Cross Reactivity

Reacts with: Rhesus Monkey, Hamster, Rat, Guinea Pig, Mouse

Based on sequence similarity, is expected to react with: Bovine, Chimpanzee, Dog, Gorilla, Horse, Human, Mouse

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.

Product Form

Serum - liquid

Antiserum Preparation Antisera to Dynorphin B (1-13) were raised by repeated immunisation of rabbits with

highly purified antigen.

Preservative Stabilisers

0.09% Sodium Azide (NaN₃)

Immunogen

Synthetic peptide, YGGFLRRQFKVVT, corresponding to full-length porcine dynorphin B (1-13), conjugated to thyroglobulin.

Specificity

Rabbit anti Dynorphin B antibody recognizes dynorphin B, an endogenous opioid peptide, also known as rimorphin with the peptide sequence Tyr-Gly-Gly-Phe-Leu-Arg-Arg-Gln-Phe-Lys-Val-Val-Thr, derived from the sequential cleavage of pro-enkephalin B to form leumorphin which is, in turn cleaved to form dynorphin B ([Devi et al. 1985](#)). The cleavage of the dynorphin precursors to form the dynorphin neuropeptides is largely controlled by the serine protease [cathepsin L](#) which co-localizes with dynorphins in secretory vesicles of brain cortical neurons([Funkelstein et al. 2010](#)) and [prohormone convertase 2](#), a member of the furin, peptidate S8 family ([Schwarzer 2009](#)).

Dynorphin b sequence is well conserved among mammal, avian ([Youngren et al. 1993](#)) and reptilian ([Goldsmith et al. 1992](#)) species. Rabbit anti Dynorphin b antibody is expected to have a wide species cross reactivity.

Storage Store at +4°C or at -20°C if preferred.

This product should be stored undiluted.

Storage in frost free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee 12 months from date of despatch
