Specificity

Rabbit anti Human DR3 antibody recognises a ~59 kDa apoptosis related protein designated DR3 (death receptor-3).

DR3 is a cell surface receptor with a death domain, with functional similarities to TNFR1 and Fas (CD95).

The ligand for DR3 has very recently been identified and has been termed Apo-3L. DR3 itself has also been called Wsl-1, Apo-3, TRAMP and LARD, and functionally induces apoptosis and NF-κB activation.

Storage

This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.
