## Datasheet: AHP669 BATCH NUMBER 151341

Description:	RABBIT ANTI GAP43
Specificity:	GAP43
Format:	Serum
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 ml

## **Product Details**

Applications	This product has been re	ported to	work in th	e following application	ons. This information is		
	derived from testing withi	in our labo	oratories,	peer-reviewed public	ations or personal		
	communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-</u>						
	rad-antibodies.com/proto	cols.					
		Yes	No	Not Determined	Suggested Dilution		
	Flow Cytometry						
	Immunohistology - Frozen	-					
	Immunohistology - Paraffin	-					
	ELISA						
	Immunoprecipitation	-					
	Western Blotting	-			1/500 - 1/1000		
	Immunofluorescence	-					
	Where this antibody has	not been <sup>-</sup>	tested for	use in a particular te	echnique this does not		
	necessarily exclude its us	se in such	procedu	es. It is recommend	ed that the user titrates		
	the antibody for use in the	eir own sy	vstem usir	ng appropriate negat	ive/positive controls.		
Target Species	Cat						
Species Cross	Reacts with: Human, Rat	, Monkey,	Mouse				
Reactivity	N.B. Antibody reactivity and working conditions may vary between species. Cross						
	reactivity is derived from testing within our laboratories, peer-reviewed publications or						
	personal communications from the originators. Please refer to references indicated for						
	further information.		-				
Product Form	Serum - liquid						
Antiserum Preparation	Antisera to GAP43 were antigen.	raised by	repeated	immunisations of ral	bbits with highly purified		
Preservative	0.09% Sodium Azide (Na	aN <sub>3</sub> )					

#### Stabilisers

Immunogen	Purified GAP43 from cat brain.

RRID	AB_2247457
Specificity	<b>Rabbit anti GAP43 antibody</b> recognises the protein designated GAP43, a neuronal protein that is expressed at elevated levels during development and also during regenerative axon growth.
	GAP43 (also known as neuromodulin, pp46, B-50, Protein F1 and calmodulin-binding protein P-57) is a protein of approximately 25 kDa that migrates on SDS-PAGE gels with an apparent size of 40-50 kDa. The aberrant migration is due to the unusually low abundance of hydrophobic amino acid residues. GAP43 is found tightly associated with neuronal membranes due to palmitoylation. The solubilised protein binds calmodulin, although this is reduced following protein kinase C phosphorylation of GAP43.

Storage	Store at +4°C or at -20°C if preferred.	
	This product should be stored undiluted.	
	Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.	
Guarantee	12 months from date of despatch	
Health And Safety Information	Material Safety Datasheet documentation #10081 available at: https://www.bio-rad-antibodies.com/SDS/AHP669 10081	
Regulatory	For research purposes only
