

Datasheet: AHP851Z

BATCH NUMBER 155658

Description:	RABBIT ANTI BOVINE INTERLEUKIN-1 BETA:Preservative Free
Specificity:	IL-1 BETA
Format:	Preservative Free
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.5 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			1ug/ml - 10ug/ml
Immunoprecipitation			▪	
Western Blotting			▪	

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species	Bovine
Species Cross Reactivity	Does not react with:Human, Mouse, Rat
Product Form	Purified IgG - liquid
Antiserum Preparation	Antisera to bovine IL-1 beta were raised by repeated immunisation of rabbits with highly purified antigen. Purified IgG was prepared by affinity chromatography on protein G.
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	None present

Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	Recombinant bovine IL-1 beta.
External Database Links	<p>UniProt: P09428 Related reagents</p> <p>Entrez Gene: 281251 IL1B Related reagents</p>
RRID	AB_2124486
Specificity	<p>Rabbit anti Bovine Interleukin-1 beta antibody recognizes bovine interleukin-1 beta (IL-1 beta).</p> <p>IL-1 beta is principally expressed by macrophages, and plays an important immunomodulatory role in the bovine immune response.</p> <p>Rabbit anti Bovine Interleukin-1 beta antibody recognizes both native and recombinant bovine IL-1 beta. No detectable cross-reactivity was observed with human, mouse or rat IL-1 beta.</p>
ELISA	This antibody may be used in an indirect ELISA or as a capture antibody in a sandwich ELISA system, in combination with biotinylated Rabbit anti Bovine interleukin-21 antibody (AHP851B) as the detection antibody. Recombinant bovine interleukin-21 (PBP008) may be used as a standard.

Storage	<p>Store at -20°C only.</p> <p>This product should be stored undiluted.</p>

Storage in frost free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee	12 months from date of despatch
