

Datasheet: AHP865

Description:	GOAT ANTI PIG IgG (H/L)
Specificity:	IgG (H/L)
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen			▪	
Immunohistology - Paraffin			▪	
ELISA	▪			1/100 - 1/10,000
Immunoprecipitation			▪	
Western Blotting			▪	

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

Target Species	Pig
Product Form	Purified IgG - liquid
Antiserum Preparation	Antisera to porcine IgG were raised by repeated immunisation of goats with highly purified antigen. Purified IgG was prepared by affinity chromatography using antigen coupled to agarose beads.
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml

Specificity	<p>Goat anti Pig IgG (H/L) antibody recognizes porcine IgG (heavy and light chains) and has been shown to react specifically with porcine IgG and with light chains common to other pig immunoglobulins, by immunoelectrophoresis and ELISA.</p> <p>Goat anti Pig IgG (H/L) antibody may cross react with IgG from other species.</p>
