

Datasheet: AHP905 BATCH NUMBER 170119

Description:	RABBIT ANTI p38 MAPK (pThr180/pTyr182)
Specificity:	p38 MAPK (pThr180/pTyr182)
Format:	Purified
Product Type:	Polyclonal Antibody
Isotype:	Polyclonal IgG
Quantity:	0.1 ml

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal					
	communications from the originators. Please refer to references indicated for further					
	information. For general p	information. For general protocol recommendations, please visit <u>www.bio-</u> rad-antibodies.com/protocols.

Antiserum Preparation Antisera to phosphorylated rat p38 MAPK were raised by repeated immunisations of rabbits with highly purified antigen. Purified IgG prepared by affinity chromatography.

Buffer Solution	10mM HEPES pH7.5			
Preservative	0.09% Sodium Azide			
Stabilisers	0.01% Bovine Serum Albumin			
	50% Glycerol			
Immunogen	Synthetic phosphopeptide corresponding to an amino acid sequence within p38 MAPK which includes phosphorylated threonine180 and tyrosine 182.

Specificity	 Rabbit anti Rat p38 MAPK (pThr180/pTyr182) antibody recognizes mitogen-activated protein kinase p38 (p38 MAPK), also known as mitogen-activated protein kinase 14 (MAPK 14), when phosphorylated at threonine 180 and tyrosine 182. p38 MAPK is a serine/threonine kinase which plays an important role in signal transduction, contributing to the regulation of many cellular processes including cell differentiation and inflammation. 			
	p38MAPK is activated by phosphorylation of threonine 180 and tyrosine 182, by several upstream kinases, in response to a wide range of extracellular stimuli such as UV B irradiation or endotoxin exposure.			
Western Blotting	AHP905 recognises a band of approximately 39kD in Western blots of anisomycin C-6 glioma cell lysates.

Storage	Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing a denature the antibody. Should this product contain a precipitate we microcentrifugation before use.	• •
Guarantee	12 months from date of despatch
