

## Datasheet: BUF030B

**BATCH NUMBER 168500**

<b>Description:</b>	5x ELISA COATING BUFFER
<b>Name:</b>	5x ELISA COATING BUFFER
<b>Format:</b>	5 X Concentrate
<b>Product Type:</b>	Accessory Reagent
<b>Quantity:</b>	500 ml

### Product Details

#### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only.

#### Product Form

5 x concentrate - liquid

#### Preservative Stabilisers

<0.5% sodium azide (NaN<sub>3</sub>)

#### Intended Use

BUF030B is a proprietary coating buffer with pH7.8 - 8.2 for use in all ELISA formats. Designed to stabilize the tertiary structure of the antibody or antigen and maximize adsorption onto polystyrene plates. It is especially effective in sandwich ELISA, preserving the antigen recognition regions of the coating antibody, allowing greater binding reactivity.

BUF030B contains an antimicrobial agent allowing coating to be performed at room temperature. Dried plates can be kept at 4°C for long term storage.

#### Instructions For Use

1. Dilute the required volume of BUF030B 1:5 with deionised water and mix for 5-15 minutes to prepare the working solution.
2. Add antibody or antigen to the working solution and mix for 5-15 minutes.
3. Coat plate (suggested volume 100-200µl per well) and incubate at room temperature for 6-24 hours, protected from light and covered to avoid evaporation.

## Storage

Store at +4°C. DO NOT FREEZE.

This product should be stored undiluted. Should this product contain a precipitate, heat gently until dissolved. Do not boil.

---

## Guarantee

Guaranteed until date of expiry. Please see product label.

---

## Health And Safety Information

Material Safety Datasheet documentation #10383 available at: <https://www.bio-rad-antibodies.com/SDS/BUF030B>
