

Datasheet: BUF032B BATCH NUMBER 168653

Description:	ELISA BSA BLOCK
Name:	ELISA BSA BLOCK
Format:	Ready To Use
Product Type:	Accessory Reagent
Quantity:	500 ml

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .							
	51104	Yes	No	Not Determined	Suggested Dilution			
	ELISA Neat							
	Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.							
Product Form	Ready to use - liquid							
Buffer Solution	Phosphate buffered salin	e						
Preservative Stabilisers	<0.1% sodium azide (Na	N ₃)						
Intended Use	BUF032B is a general purpose ELISA blocking buffer for use in all ELISA formats requiring low to average blocking strength. The buffer contains a mammalian protein blocking agent based on BSA, proprietary protein stabilizers and an antimicrobial agent. It provides a long-term stable environment for coating antigen or capture antibody, whilst minimizing non-specific binding interactions in the assay process. Plates can be blocked at room temperature and stored once dried for up to a year at +4°C.							
Instructions For Use	1. Coat ELISA plate with	antibody	or antigen	as required.				
	2. After incubation, remove the coating solution and wash the plate x2 with wash buffer. <u>BUF031A</u> can be used for this purpose.							
	3. Add 300-400ul of BUF	032B and	incubate	for 2-24 hours. Use a	volume equal to or			

	greater than the volume of coating solution.			
	4. After removal of the blocking buffer continue with the assay or dry the plate for long-term storage at +4°C.			
Storage	Store at +4°C.			
	DO NOT FREEZE			
	This product should be stored undiluted.			
Guarantee	Guaranteed until date of expiry. Please see product label.			
Health And Safety Information	Material Safety Datasheet documentation #10378 available at: https://www.bio-rad-antibodies.com/SDS/BUF032B 10378			
Regulatory	For research purposes only
