

Datasheet: BUF039C

BATCH NUMBER 165529

Description:	ELISA NEPTUNE ASSAY DILUENT
Name:	ELISA NEPTUNE ASSAY DILUENT
Format:	Ready To Use
Product Type:	Accessory Reagent
Quantity:	1000 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			Neat

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Product Form	Ready to use - liquid
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.1% Sodium Azide

Product Information

ELISA Neptune Assay Diluent is an ELISA assay diluent designed to reduce background noise in problematic human, porcine and bovine serum or plasma samples. Specially formulated for use in antigen-down ELISA, it contains non-mammalian protein and proprietary detergent additives to reduce non-specific IgG adsorption to antigen coated and blocked ELISA well surfaces.

The difference in complexity, between serum or plasma samples and diluted standard curve proteins, is a potential cause of target analyte under-recovery. BUF039A equalizes the matrix, inhibits complement and thrombin activity and contains an antimicrobial agent.

Instructions For Use	Pipette buffer directly onto the plate just prior to adding the sample or standard (suggested volume 50 - 100ul/well).
