

Datasheet: BUF048

BATCH NUMBER 165921

Description:	OVALBUMIN:HRP
Name:	OVALBUMIN
Format:	HRP
Product Type:	Accessory Reagent
Quantity:	0.5 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			1/50 - 1/150

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Product Form	Purified Ovalbumin conjugated to Horseradish Peroxidase (HRP) - liquid
---------------------	--

Buffer Solution	Phosphate buffered saline
------------------------	---------------------------

Preservative Stabilisers	0.01% Thiomersal
---------------------------------	------------------

Approx. Protein Concentrations	1.0mg/ml
---------------------------------------	----------

Intended Use	BUF048 is a preparation of HRP conjugated ovalbumin, which may be used for the measurement of ovalbumin specific IgE in immunoassay systems, without species restriction.
---------------------	---

Storage This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee 12 months from date of despatch
