

Datasheet: BUF052C

Description:	AbGUARD® HRP STABILIZER PLUS
Name:	HRP-STABILIZING DILUENT
Format:	Ready To Use
Product Type:	Accessory Reagent
Quantity:	1000 ml

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-</u>

	necessarily exclude its us	se in such	n procedu	res. Suggested workin	g dilutions are given as			
	a guide only. It is recomm	nended th	nat the use	er titrates the product f	or use in their own			
	system using appropriate			•				
Product Form	Ready to use - liquid							
Preparation	Weakly white liquid based on a Tris buffer with proprietary stabilizing components. Does not contain azide, mercury, BSA or other bovine material. Does contain weak concentrations of rabbit antibodies.							
Preservative Stabilisers	<15ppm CMIT/MIT							
Intended Use	AbGuard HRP Stabilizer Plus can be used for the direct dilution and long-term stabilization/storage of Horseradish Peroxidase (HRP)-conjugated proteins and antibodies at both low and high protein concentrations. HRP-conjugated proteins diluted with AbGuard HRP Stabilizer Plus can be stored at 4°C for a minimum of 30 months, and can withstand temperatures up to 37°C for 2 weeks or more. AbGuard HRP Stabilizer Plus stabilizes the HRP enzyme and optimizes the signal- to-noise ratio in most assays. Bio-Rad recommends the use of our TMB range for this purpose.							

	Please note - this product cannot be used for the dilution of anti-ra antibodies e.g Goat anti-Rabbit Ig etc.	abbit immunoglobulin
