

## Datasheet: BUF054A

Description:	TMB SIGNAL+
Name:	TMB SIGNAL+
Format:	Ready To Use
Product Type:	Accessory Reagent
Quantity:	100 ml

## **Product Details**

Applications	This product has been rep derived from testing within communications from the information. For general p rad-antibodies.com/protoc	n our labo originator protocol re	ratories, p s. Please	eer-reviewed publicat refer to references inc	ions or personal dicated for further		
	ELISA	•			Neat		
	Where this product has no	ot been te	sted for us	se in a particular tech	nique this does not		
	necessarily exclude its use in such procedures. Suggested working dilutions are given a a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.						
Product Form	Ready to use TMB solution	on - liquid					
Intended Use	<ul> <li>BUF054A is a high performance TMB (3,3', 5, 5'- tetramethylbenzidine) solution, recommended for use in ELISA detection systems as a substrate for horseradish peroxidase (HRP).</li> <li>BUF054A contains TMB, substrate buffer and hydrogen peroxide in a safe, ready to solution. TMB SIGNAL+ has been optimised to enable increased sensitivity whilst maintaining increased stability. BUF054A provides minimal background and rapid development.</li> </ul>						
	BUF054A produces a dee horseradish peroxidase. F However, for endpoint ass resulting in a yellow colou	or kinetic says the re	assays the	e absorbance is read	at 655nm (blue).		
Instructions For Use	1. Pour the desired amoun room temperature in the c						
	2. Add 0.1ml of BUF054A	per micro	otiter well.
