

Datasheet: C06SB

BATCH NUMBER 155163

Description:	DONKEY SERUM
Name:	DONKEY SERUM
Format:	Serum
Product Type:	Serum
Quantity:	100 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Frozen	▪			
Immunohistology - Paraffin	▪			
Immunoassay	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Product Form	Serum - liquid
---------------------	----------------

Preservative Stabilisers	0.1% Sodium Azide
---------------------------------	-------------------

Product Information	Donkey Serum is a sterile filtered preparation of donkey serum prepared from donkey whole blood following clotting.
----------------------------	--
