

Datasheet: C09SA

BATCH NUMBER 159159

Description:	HORSE SERUM WITH AZIDE
Name:	HORSE SERUM
Format:	Serum
Product Type:	Serum
Quantity:	100 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Frozen	▪			
Immunohistology - Paraffin	▪			
Immunoassay	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Product Form	Whole serum - liquid
---------------------	----------------------

Preparation	Normal horse serum
--------------------	--------------------

Preservative Stabilisers	0.1% Sodium Azide
---------------------------------	-------------------

References	1. Hillyer, P. <i>et al.</i> (2009) Investigating the role of the interleukin-23/-17A axis in rheumatoid arthritis. Rheumatology (Oxford). 48: 1581-9.
-------------------	--

Storage	This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.
----------------	---

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

Guarantee 12 months from date of despatch
