Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1) **This product is not sold as sterile but can be sterilized by filtration if necessary. It is preferable to dilute the complement to a final working concentration before filtration in order to minimize loss of volume.**

### Product Form

Baby rabbit serum - lyophilised

### Reconstitution

Reconstitute with 2ml ice cold distilled water

### Preservative Stabilisers

None present

### Product Information

**Baby rabbit complement** serum preparation is intended for use as a source of rabbit complement for cytotoxicity studies.

### Instructions For Use

Use within one hour of reconstitution, keeping on ice throughout.
