Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1) **This product is not sold as sterile but can be sterilized by filtration if necessary. It is preferable to dilute the complement to a final working concentration before filtration in order to minimize loss of volume.**

### Product Form

Baby rabbit serum - lyophilized

### Reconstitution

Reconstitute with 2ml ice cold distilled water

### Preservative Stabilisers

None present

### Product Information

**Baby rabbit complement** serum preparation is intended for use as a source of rabbit complement for cytotoxicity assays.

### Instructions For Use

Use within one hour of reconstitution, keeping on ice throughout.

### References

Storage

Prior to reconstitution store at +4°C. Following reconstitution store at +4°C for 1 hour or aliquot and store at -70°C for longer.

This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the product. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee

Guaranteed until date of expiry. Please see product label.
