Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1) **This product is not sold as sterile but can be sterilized by filtration if necessary. It is preferable to dilute the complement to a final working concentration before filtration in order to minimize loss of volume.**

**Product Form**

Baby rabbit serum - lyophilized

**Reconstitution**

Reconstitute with 2ml ice cold distilled water

**Preservative Stabilisers**

None present

**Product Information**

**Baby rabbit complement** serum preparation is intended for use as a source of rabbit complement for cytotoxicity assays.

**Instructions For Use**

Use within one hour of reconstitution, keeping on ice throughout.

<tr>
<th>Storage</th>
<th>Prior to reconstitution store at +4°C. Following reconstitution store at +4°C for 1 hour or aliquot and store at -70°C for longer. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the product. Should this product contain a precipitate we recommend microcentrifugation before use.</th>
