

Datasheet: C12SB

Description:	RABBIT SERUM WITH 0.1% AZIDE
Name:	RABBIT SERUM
Format:	Serum
Product Type:	Serum
Quantity:	100 ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Immunohistology - Frozen	▪			
Immunohistology - Paraffin	▪			
Immunoassay	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Product Form Whole serum - liquid

Preparation Normal rabbit serum, 0.45µm filtered.

Preservative Stabilisers 0.1% Sodium Azide

Product Information Normal rabbit serum specifically for use in immunohistopathology. This serum has been processed to minimize haemolysis and filtered to 0.45µm to remove protein aggregates and can be used as blocking sera, control sera or a serum additive in dilution buffers.
