**Product Information**

**Recombinant Human IgG3 lambda, clone AbD00264\_hlgG3** is a recombinant Human IgG3 antibody containing a lambda light chain. The heavy chain belongs to the G3m(b1), previously designated G3m5, allotype.

Clone AbD00264\_hlgG3 is specific for green fluorescent protein (GFP). It has no known reactivity with mammalian proteins or other antigens. It is therefore recommended as a control reagent for assays where this immunoglobulin is measured, or when using other human antibodies of the same isotype and subclass. It is recommended that this reagent is used at the same concentration as the test reagent.

**Storage**

Store at +4°C or at -20°C if preferred.  
Storage in frost-free freezers is not recommended.  
This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
