

Datasheet: HCA206

Description:	HUMAN ANTI ADALIMUMAB (DRUG/TARGET COMPLEX)
Specificity:	ADALIMUMAB (DRUG/TARGET COMPLEX)
Other names:	HUMIRA®
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	AbD18754
Isotype:	HuCAL Fab monovalent
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Product Form

A monovalent human recombinant Fab (kappa light chain) selected from the HuCAL phage display library, expressed in E. coli. The antibody is tagged with a DYKDDDDK tag and a HIS-tag (HHHHHH) at the C-terminus of the antibody heavy chain. This antibody is supplied as a liquid.

Preparation

Metal chelate affinity chromatography

Source

E.coli

Buffer Solution

Phosphate buffered saline.

Preservative Stabilisers

0.09% Sodium Azide (NaN₃)

Approx. Protein Concentrations

Antibody concentration 0.5 mg/ml

Immunogen	Adalimumab/TNF α complex
Specificity	<p>Human anti Adalimumab, clone AbD18754, is an antibody that specifically recognizes the adalimumab monoclonal antibody while complexed with TNFα. As clone AbD18754 is a complex-specific antibody that recognizes adalimumab bound to its target, TNFα, it does not recognize either free adalimumab or unbound TNFα.</p> <p>Clone AbD18754 can be used in assays to measure adalimumab that has been captured via immobilized TNFα. It can also be used to measure adalimumab, TNFα and biosimilar products using bioanalytical assays.</p> <p>Adalimumab (branded as Humira[®]) is a fully human monoclonal antibody (IgG1/kappa) approved for the treatment of ankylosing spondylitis, Crohn's disease, psoriasis and several forms of arthritis. The antibody is specific for TNFα, and acts by blocking the activation of TNF receptors by TNFα. This inactivation down-regulates the inflammatory reactions associated with autoimmune diseases.</p> <p>View a summary of all anti-adalimumab antibodies</p>
Affinity	The intrinsic affinity of the monovalent form of this antibody is $K_D=67$ nM as measured by real time, label-free molecular interaction analysis on immobilized Adalimumab/TNF α complex.
ELISA	This product may be used in an indirect ELISA on Adalimumab/TNF α complexes or as detection antibody, when conjugated to HRP, for Adalimumab bound to TNF α . Protocol: PK antigen capture ELISA to measure bound drug exclusively .

Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
Guarantee	12 months from date of despatch
Acknowledgements	<p>This product and/or its use is covered by claims of U.S. patents, and/or pending U.S. and non-U.S. patent applications owned by or under license to Bio-Rad Laboratories, Inc. Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/HCA206

Licensed Use	For <i>in vitro</i> research purposes and for commercial applications for the provision of <i>in vitro</i> testing services to support preclinical and clinical drug development. Any re-sale in any form or any other commercial application needs a written agreement with Bio-Rad.
Regulatory	For research purposes only
Technical Advice	Recommended protocols and further information about HuCAL recombinant antibody technology can be found in the HuCAL Antibodies Technical Manual
