

## Datasheet: HCA288

<b>Description:</b>	HUMAN ANTI DENOSUMAB
<b>Specificity:</b>	DENOSUMAB
<b>Format:</b>	Purified
<b>Product Type:</b>	Monoclonal Antibody
<b>Clone:</b>	AbD26296
<b>Isotype:</b>	HuCAL Fab monovalent
<b>Quantity:</b>	0.1 mg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
ELISA	■			

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

### Product Form

A monovalent human recombinant Fab (kappa light chain) selected from the HuCAL® phage display library, expressed in *E. coli*. The antibody is tagged with a DYKDDDDK tag and a HIS-tag (HHHHHH) at the C-terminus of the antibody heavy chain. This antibody is supplied as a liquid.

### Preparation

Metal chelate affinity chromatography

### Buffer Solution

Phosphate buffered saline

### Preservative Stabilisers

0.01% Thiomersal

### Approx. Protein Concentrations

Antibody concentration 0.5 mg/ml

### Immunogen

Denosumab

### Specificity

**Human Anti-Denosumab Antibody, clone AbD26296** is a paratope specific, anti-idiotypic antibody that specifically recognizes the monoclonal antibody drug denosumab. The antibody does not recognize free RANKL (receptor activator of nuclear factor kappa-B ligand), or denosumab in complex with human RANKL and can be used to measure the levels of free denosumab and biosimilar products in bioanalytical assays.

A pair of anti-denosumab antibodies can be used to develop a pharmacokinetic (PK) bridging assay to measure free drug. This antibody, in monovalent Fab format, is recommended as the

capture antibody, paired with an anti-denosumab antibody in full immunoglobulin format, clone AbD26295\_hlgG1 ([HCA280](#)) as the detection antibody.

Denosumab (Prolia, Xgeva) is a fully human monoclonal antibody (IgG2/kappa) for the treatment of osteoporosis, treatment-induced bone loss, bone metastases, multiple myeloma, and giant cell tumor of bone. The drug specifically binds to human RANKL, a protein that acts as the primary signal to promote bone removal/resorption and prevents RANKL from activating its receptor, RANK, on the surface of osteoclasts and their precursors.

---

<b>Affinity</b>	The monovalent intrinsic affinity of AbD26296 was measured as $K_D = 7.1$ nM by real time, label free molecular interaction analysis on immobilized denosumab
-----------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------

---

<b>ELISA</b>	Clone AbD26296 can be used in a direct or indirect ELISA system or as capture antibody for denosumab in a bridging ELISA together with <a href="#">HCA280P</a> (AbD26295_hlgG1) as the detection reagent. Protocol: <a href="#">PK bridging ELISA to measure total drug</a>

---

<b>Storage</b>	Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
----------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

---

<b>Guarantee</b>	12 months from date of despatch
