

Datasheet: HCA379

**BATCH NUMBER 160403**

<b>Description:</b>	ANTI SpyCatcher
<b>Specificity:</b>	SPYCATCHER
<b>Format:</b>	Purified
<b>Product Type:</b>	Monoclonal Antibody
<b>Clone:</b>	AbD41909kg
<b>Isotype:</b>	IgG
<b>Quantity:</b>	0.1 mg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
ELISA	▪			1/10,000 - 1/20,000
Western Blotting	▪			1/10,000 - 1/20,000

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

<b>Target Species</b>	Synthetic Peptide
<b>Product Form</b>	Recombinant chimeric human/rabbit IgG antibody (lambda light chain) selected from the HuCAL® phage display library and expressed in a human cell line. In this antibody, the VH-CH1 regions and light chains are human while the Fc region is derived from rabbit IgG. This antibody is supplied as a liquid.
<b>Preparation</b>	Purified IgG prepared by affinity chromatography on Protein A
<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative Stabilisers</b>	0.01% Thiomersal
<b>Approx. Protein Concentrations</b>	Antibody concentration 1.0 mg/ml

<b>Immunogen</b>	SpyCatcher
<b>Specificity</b>	<p><b>Anti-SpyCatcher Antibody, clone AbD41909kg</b> is a chimeric antibody comprising a human Fab portion and a rabbit Fc domain, which specifically binds to SpyCatcher protein with high affinity. SpyCatcher is used for protein ligation in combination with the SpyTag (<a href="#">Zakeri et al. 2012</a>). SpyCatcher is derived from the second immunoglobulin-like collagen adhesin domain (CnaB2) from the fibronectin binding protein (FbaB) of <i>Streptococcus pyogenes</i>.</p> <p>Anti-SpyCatcher Antibody binds to the original SpyCatcher as well as the optimized derivatives SpyCatcher2 (<a href="#">Keeble et al. 2017</a>) and SpyCatcher3 (<a href="#">Keeble et al. 2019</a>). It recognizes the SpyCatcher variants in uncoupled form as well as when coupled to the SpyTag peptide or to fusion proteins with C-terminally fused SpyTag. N-terminal fusions were not tested.</p> <p><a href="#">View a summary of SpyCatcher products</a></p>
<b>Storage</b>	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
<b>Guarantee</b>	12 months from date of despatch
<b>Acknowledgements</b>	This product and/or its use is covered by claims of U.S. patents, and/or pending U.S. and non-U.S. patent applications owned by or under license to Bio-Rad Laboratories, Inc. See <a href="http://bio-rad.com/en-us/trademarks">bio-rad.com/en-us/trademarks</a> for details.
<b>Health And Safety Information</b>	Material Safety Datasheet documentation #10094 available at: <a href="https://www.bio-rad-antibodies.com/SDS/HCA37910094">https://www.bio-rad-antibodies.com/SDS/HCA37910094</a>
