

## Datasheet: HCA406

| Description:  | ANTI SpyTag         |  |
|---------------|---------------------|--|
| Specificity:  | SPYTAG              |  |
| Format:       | Purified            |  |
| Product Type: | Monoclonal Antibody |  |
| Clone:        | AbD51767kg          |  |
| Isotype:      | IgG                 |  |
| Quantity:     | 0.1 mg              |  |
|               |                     |  |

#### **Product Details**

#### **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

|                  | Yes | No | Not Determined | Suggested Dilution  |
|------------------|-----|----|----------------|---------------------|
| ELISA            | -   |    |                | 1/10,000 - 1/20,000 |
| Western Blotting | -   |    |                | 1/5,000 - 1/10,000  |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

| Target Species                 | Synthetic Peptide                                                                                                                                                                                                                                                                                            |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Form                   | Recombinant chimeric human/rabbit IgG antibody (lambda light chain) selected from the HuCAL phage display library and expressed in a human cell line. In this antibody, the VH-CH1 regions and light chains are human while the Fc region is derived from rabbit IgG. This antibody is supplied as a liquid. |
| Preparation                    | Purified IgG prepared by affinity chromatography on Protein A                                                                                                                                                                                                                                                |
| Source                         | HKB-11                                                                                                                                                                                                                                                                                                       |
| Buffer Solution                | Phosphate buffered saline                                                                                                                                                                                                                                                                                    |
| Preservative<br>Stabilisers    | 0.09% Sodium Azide (NaN <sub>3</sub> )                                                                                                                                                                                                                                                                       |
| Approx. Protein Concentrations | Antibody concentration 1.0 mg/ml                                                                                                                                                                                                                                                                             |

| Immunogen                        | SpyTag version 1 and 2                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specificity                      | Anti-SpyTag Antibody, clone AbD51767kg is a chimeric antibody comprising a human Fab portion and a rabbit Fc domain, which specifically binds to SpyTag protein with high affinity. SpyTag is a 13 amino acid peptide tag deriving from the second immunoglobulin-like collagen adhesin domain (CnaB2) from the fibronectin binding protein (FbaB) of <i>Streptococcus pyogenes</i> and mainly used for protein ligation in combination with the SpyCatcher (Zakeri et al. 2012). |
|                                  | Anti-SpyTag Antibody binds to the original SpyTag as well as the optimized derivatives SpyTag2 (Keeble et al. 2017) and SpyTag3 (Keeble et al. 2019). It recognizes the SpyTag variants in uncoupled form when fused to both N-terminal or C-terminal end of the target protein. The anti-SpyTag Antibody has been shown to not react with any SpyCatcher variants nor with <i>E.coli</i> lysate. Only residual detection of SpyTag ligated to SpyCatchers was observed in ELISA. |
| Storage                          | This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.                                                                                                                                                                                                                       |
|                                  | Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.                                                                                                                                                                                                                                                                                                                                                         |
| Guarantee                        | 12 months from date of despatch                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Acknowledgements                 | This product and/or its use is covered by claims of U.S. patents, and/or pending U.S. and non-U.S. patent applications owned by or under license to Bio-Rad Laboratories, Inc. See bio-rad.com/en-us/trademarks for details.                                                                                                                                                                                                                                                      |
