Datasheet: MCA02A488

Description: MOUSE ANTI MOUSE CD90:Alexa Fluor® 488

Specificity: CD90

Other names: THY1

Format: ALEXA FLUOR® 488

Product Type: Monoclonal Antibody

Clone: F7D5

Isotype: IgM

Quantity: 100 TESTS/1ml

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

Flow Cytometry

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Target Species

Mouse

Product Form

IgM fraction conjugated to Alexa Fluor 488 - liquid

Max Ex/Em

<table>

Preparation

IgM fraction prepared by ammonium sulfate precipitation

Buffer Solution

Phosphate buffered saline

Preservative

0.09% Sodium Azide (NaN₃)

Stabilisers

1% Bovine Serum Albumin

Approx. Protein Concentrations

Ig concentration 0.05 mg/ml

Synonyms

Thy-1

Fusion Partners

Spleen cells from immunised AKR mice were fused with cells of the mouse NS-1 myeloma cell line.

Specificity

**Mouse anti Mouse CD90 antibody, clone F7D5** recognizes the mouse Thy1.2 alloantigen, also known as CD90.2, which is expressed by thymocytes and peripheral T lymphocytes. Clone F7D5 reacts with Thy1.2 mice such as CBA and BALB/C, but not with Thy1.1 mice eg. AKR and FUB.

The antibody is particularly useful for removal of T lymphocytes from cell populations by complement mediated cytotoxicity (Lake et al. 1979).

Mouse anti Mouse CD90 antibody, clone F7D5 is routinely tested in flow cytometry using mouse thymocytes.

Flow Cytometry

Use 10ul of the suggested working dilution to label 1x10^6 cells in 100ul

References

Storage
Store at +4°C or at -20°C if preferred. Storage in frost-free freezers is not recommended. This product should be stored undiluted. This product is photosensitive and should be protected from light. Should this product contain a precipitate we recommend microcentrifugation before use.

Shelf Life
18 months from date of despatch
