Datasheet: MCA1033GA BATCH NUMBER 161961

Description:	RAT ANTI MOUSE CD71
Specificity:	CD71
Other names:	TRANSFERRIN RECEPTOR
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	YTA74.4
Isotype:	lgG2a
Quantity:	0.1 mg

Product Details

Applications This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u>.

		Yes	No	Not Determined	Suggested Dilution
	Flow Cytometry				
	Immunohistology - Frozen	-			
	Immunohistology - Paraffin				
	ELISA			•	
	Immunoprecipitation				
	Western Blotting			-	
	Where this antibody has	not been	tested for	r use in a particular teo	hnique this does not
	necessarily exclude its us a guide only. It is recomm system using appropriate	nended th	nat the us	er titrates the antibody	
Target Species	Mouse				
Product Form	Purified IgG - liquid				
Preparation	Purified IgG prepared by supernatant	affinity c	hromatog	raphy on Protein G fror	m tissue culture
Buffer Solution	Phosphate buffered salin	e			

Preservative Stabilisers	0.09% Sodium Azide	
-----------------------------	--------------------	--

Carrier Free	Yes
Approx. Protein Concentrations	IgG concentration 1 mg/ml
Immunogen	Concanavilin A activated mouse spleen cells.
External Database Links	UniProt: <u>Q62351</u> <u>Related reagents</u> Entrez Gene:
	22042 Tfrc Related reagents
Synonyms	Trfr
RRID	AB_324703
Fusion Partners	Spleen cells from an immunised DA rat were fused with cells of the Y3/Ag1.2.3 rat myeloma cell line.
Specificity	Rat anti Mouse CD71 antibody, clone YTA74.4 recognizes the mouse Transferrin receptor protein 1 also known as CD71 or TfR1. CD71 is a 763 amino acid glycoprotein homodimer of ~95 kDa subunits. CD71 is expressed by dividing cells, and functions as a transferrin receptor mediating uptake of iron. Rat anti Mouse CD71 antibody, clone YTA74.4 blocks the binding of R17 217.1.3. and R17 208.2 anti-TFR monoclonal antibodies (<u>Trowbridge <i>et al.</i> 1982</u>).
Flow Cytometry	Use 10ul of the suggested working dilution to label 1 x 10^6 cells in 100ul.

Storage	This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.					
	Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.					
Guarantee	12 months from date of despatch					
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/MCA1033GA 10040					
Regulatory	For research purposes only
