

# Datasheet: MCA1033SBV570

**BATCH NUMBER 100008293**

|                      |   |
|----------------------|---|
| <b>Description:</b>  | RAT ANTI MOUSE CD71:StarBright Violet 570 |
| <b>Specificity:</b>  | CD71                                      |
| <b>Other names:</b>  | TRANSFERRIN RECEPTOR                      |
| <b>Format:</b>       | StarBright Violet 570                     |
| <b>Product Type:</b> | Monoclonal Antibody                       |
| <b>Clone:</b>        | YTA74.4                                   |
| <b>Isotype:</b>      | IgG2a                                     |
| <b>Quantity:</b>     | 100 TESTS/0.5ml                           |

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

|                | Yes | No | Not Determined | Suggested Dilution |
|----------------|-----|----|----------------|--------------------|
| Flow Cytometry | ▪   |    |                | Neat               |

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

|                                 |   |                            |                          |
|---------------------------------|---|----------------------------|--------------------------|
| <b>Target Species</b>           | Mouse   |                            |                          |
| <b>Product Form</b>             | Purified IgG conjugated to StarBright Violet 570 - liquid                                     |                            |                          |
| <b>Max Ex/Em</b>                | <b>Fluorophore</b>  | <b>Excitation Max (nm)</b> | <b>Emission Max (nm)</b> |
|                                 | StarBright Violet 570   | 404                        | 571                      |
| <b>Preparation</b>              | Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant |                            |                          |
| <b>Buffer Solution</b>          | Phosphate buffered saline   |                            |                          |
| <b>Preservative Stabilisers</b> | 0.09% Sodium Azide (NaN <sub>3</sub> )  |                            |                          |
|                                 | 1% Bovine Serum Albumin   |                            |                          |
|                                 | 0.1% Pluronic F68   |                            |                          |
|                                 | 0.1% PEG 3350   |                            |                          |

0.05% Tween 20

|                         |  |
|-------------------------|--|
| Immunogen               | Concanavalin A activated mouse spleen cells.   |
| External Database Links | <b>UniProt:</b><br><a href="#">Q62351</a> <a href="#">Related reagents</a><br><br><b>Entrez Gene:</b><br><a href="#">22042</a> Tfrc <a href="#">Related reagents</a>   |
| Synonyms                | Tfrr   |
| Fusion Partners         | Spleen cells from an immunized DA rat were fused with cells of the Y3/Ag1.2.3 rat myeloma cell line.   |
| Specificity             | <p><b>Rat anti Mouse CD71 antibody, clone YTA74.4</b> recognizes the mouse transferrin receptor protein 1 also known as CD71 or TfR1. CD71 is a 763 amino acid glycoprotein homodimer of ~95 kDa subunits. CD71 is expressed by dividing cells, and functions as a transferrin receptor mediating uptake of iron.</p> <p>Rat anti Mouse CD71 antibody, clone YTA74.4 blocks the binding of R17 217.1.3. and R17 208.2 anti-TFR monoclonal antibodies (<a href="#">Trowbridge et al. 1982</a>).</p>   |
| Flow Cytometry          | Use 5µl of the suggested working dilution to label 10 <sup>6</sup> cells in 100µl. Best practices suggest a 5 minutes centrifugation at 6,000g prior to sample application.  |

**Storage**

Store at +4°C. DO NOT FREEZE.

This product should be stored undiluted.

---

**Guarantee**

12 months from date of despatch

---

**Acknowledgements**

This product is covered by U.S. Patent No. 10,150,841 and related U.S. and foreign counterparts

---

**Health And Safety Information**
