

Datasheet: MCA1076SBUV445 BATCH NUMBER 100006406

Description:	MOUSE ANTI HUMAN CD62L:StarBright UltraViolet 445		
Specificity:	CD62L		
Other names:	LECAM-1, L-SELECTIN		
Format:	StarBright UltraViolet 445		
Product Type:	Monoclonal Antibody		
Clone:	FMC46		
Isotype:	lgG2b		
Quantity:	100 TESTS/0.5ml		

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-</u> rad-antibodies.com/protocols.				
		Yes No	Not Determined	Suggested Dilution	
	Flow Cytometry	•		Neat	
	necessarily exclude it	s use in such proce ommended that the	or use in a particular tecl dures. Suggested workir user titrates the product ve controls.	ng dilutions are given as	
Target Species	Human				
Species Cross Reactivity	Reacts with: Bovine, Cynomolgus monkey, Rhesus Monkey, Dog N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.				
Product Form	Purified IgG conjugated to StarBright UltraViolet 445 - liquid				
Max Ex/Em	Fluorophore	Excitation Max (nr	n) Emission Max (nm)		
	StarBright UltraViolet 445	347	440		
Preparation	Purified IgG prepared supernatant	by affinity chromat	ography on Protein G fro	m tissue culture	

Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃) 1% Bovine Serum Albumin 0.1% Pluronic F68 0.1% PEG 3350 0.05% Tween 20
Immunogen	PHA stimulated lymphoblasts
External Database Links	UniProt: P14151 Related reagents Entrez Gene: 6402 SELL Related reagents
Synonyms	LNHR, LYAM1
Fusion Partners	Spleen cells from immunized BALB/c mice were fused with cells of the mouse NS1 myeloma cell line
Specificity	Mouse anti Human CD62L antibody, clone FMC46 recognizes human CD62L, also known a L-selectin, a 74-95 kDa member of the selectin family of adhesion receptors, which acts as a ligand for both CD62P (P-selectin) and CD62E (E-selectin). Human CD62L is constitutively expressed on most leucocytes including monocytes, granulocytes, lymphocytes, NK cells, bone marrow myeloid progenitor cells and on a subset of thymocytes.
	CD62L plays an important role in leucocyte tethering and rolling on the endothelial cell surface and for the homing of naïve lymphocytes to lymph nodes and Peyers patches via HEV. Neutrophils require a constant supply of this molecule on the cell surface for migration into peripheral tissues and adhesion to activated endothelium at sites of inflammation, where CD62L is rapidly shed as soluble L-selectin, but surface expression still remains.
	The expression of CD62L is down regulated on lymphocytes and neutrophils by PMA stimulation.
Flow Cytometry	Use 5ul of the suggested working dilution to label 10 ⁶ cells in 100ul. Best practices suggest a 5 minutes centrifugation at 6,000g prior to sample application.
