

Datasheet: MCA1076SBUV665

BATCH NUMBER 100006127

Description:	MOUSE ANTI HUMAN CD62L:StarBright UltraViolet 665	
Specificity:	CD62L	
Other names:	LECAM-1, L-SELECTIN	
Format:	StarBright UltraViolet 665	
Product Type:	Monoclonal Antibody	
Clone:	FMC46	
Isotype:	lgG2b	
Quantity:	100 TESTS/0.5ml	

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.biorad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	•			Neat

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

Species Cross
Reactivity

Target Species

Reacts with: Bovine, Cynomolgus monkey, Rhesus Monkey, Dog

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for

further information.

Human

Product Form

Purified IgG conjugated to StarBright UltraViolet 665 - liquid

Max Ex/Em	Fluorophore	Excitation Max (nm)	Emission Max (nm)
	StarBright UltraViolet 665	340	684

Preparation

Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant

Buffer Solution	Phosphate buffered saline	
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃) 1% Bovine Serum Albumin 0.1% Pluronic F68 0.1% PEG 3350 0.05% Tween 20	
lmmunogen	PHA stimulated lymphoblasts	
External Database Links	UniProt: P14151 Related reagents Entrez Gene: 6402 SELL Related reagents	
Synonyms	LNHR, LYAM1	
Fusion Partners	Spleen cells from immunized BALB/c mice were fused with ce myeloma cell line	lls of the mouse NS1
Specificity	Mouse anti Human CD62L antibody, clone FMC46 recognizione known a L-selectin, a 74-95 kDa member of the selectin family which acts as a ligand for both CD62P (P-selectin) and CD62E CD62L is constitutively expressed on most leucocytes includin lymphocytes, NK cells, bone marrow myeloid progenitor cells at thymocytes.	of adhesion receptors, E (E-selectin). Human g monocytes, granulocytes,
	CD62L plays an important role in leucocyte tethering and rolling surface and for the homing of naïve lymphocytes to lymph noon HEV. Neutrophils require a constant supply of this molecule or migration into peripheral tissues and adhesion to activated end inflammation, where CD62L is rapidly shed as soluble L-select still remains.	les and Peyers patches via the cell surface for dothelium at sites of
	The expression of CD62L is down regulated on lymphocytes a stimulation.	and neutrophils by PMA
Flow Cytometry	Use 5ul of the suggested working dilution to label 10 ⁶ cells in suggest a 5 minutes centrifugation at 6,000g prior to sample a	•
