

Datasheet: MCA1193FT BATCH NUMBER 151591

Description:	MOUSE ANTI HUMAN CD16:FITC		
Specificity:	CD16		
Other names:	FcRIII		
Format:	FITC		
Product Type:	Monoclonal Antibody		
Clone:	LNK16		
Clone: Isotype:	LNK16 lgG1		

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-</u> rad-antibodies.com/protocols.					
		Yes No	Not Determined	Suggested Dilution		
	Flow Cytometry	•		Neat		
	Immunohistology - Frozen					
	Immunohistology - Paraffir	n				
Target Species	Where this antibody has necessarily exclude its u a guide only. It is recom system using appropriat Human	use in such proce mended that the	dures. Suggested wor user titrates the antibo	king dilutions are given as		
larger openes	numan					
Product Form	Purified IgG conjugated to Fluorescein Isothiocyanate Isomer 1 (FITC) - liquid					
Max Ex/Em	Fluorophore	Excitation Max (n	n) Emission Max (nm)		
	FITC	490	525			
Preparation	Purified IgG prepared by ion exchange chromatography					
Buffer Solution	Phosphate buffered saline					
Preservative Stabilisers	0.09% Sodium Azide 1% Bovine Serum Al	bumin				

Approx. Protein Concentrations	IgG concentration 0.1 mg/ml	
Immunogen	Normal human peripheral blood granulocytes.	
External Database Links	UniProt:P08637Related reagentsO75015Related reagentsEntrez Gene:2214FCGR3ARelated reagents2215FCGR3BRelated reagents	
Synonyms	CD16A, CD16B, FCG3, FCGR3, IGFR3	
RRID	AB_1100859	
Fusion Partners	Spleen cells from immunised BALB/c mice were fused with cells of the mouse X63.653 myeloma cell line.	
Specificity	Mouse anti Human CD16 antibody, clone LNK16 recognizes CD16, a 50-65 kDa cell surface molecule which exists in two forms - a transmembranous form expressed by NK cells and some T cells, and a phosphatidylinositol linked form expressed by granulocytes. CD16 is a low affinity receptor for IgG (FcR III), and is an important receptor mediating ADCC by NK cells. Mouse anti Human CD16 antibody, clone LNK16 has been reported to block the binding of IgG to the CD16 molecule (Tamm and Schmidt 1996).	
Flow Cytometry	Use 10ul of the suggested working dilution to label 10 ⁶ cells or 100ul whole blood

Storage	Store at +4°C or at -20°C if preferred.
	This product should be stored undiluted.
	Storage in frost-free freezers is not recommended. This product is photosensitive and should be protected from light.
	Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10041 available at: https://www.bio-rad-antibodies.com/SDS/MCA1193FT 10041
Regulatory	For research purposes only
