

Datasheet: MCA1212EL

BATCH NUMBER 162945

| Description: | RAT IgG2a NEGATIVE CONTROL:Low Endotoxin |
|---------------|--|
| Specificity: | RAT IgG2a NEGATIVE CONTROL |
| Format: | Low Endotoxin |
| Product Type: | Negative/Isotype Control |
| Isotype: | lgG2a |
| Quantity: | 0.5 mg |

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

| | Yes | No | Not Determined | Suggested Dilution |
|----------------------------|-----|----|----------------|--------------------|
| Flow Cytometry | • | | | * |
| Immunohistology - Frozen | | | | |
| Immunohistology - Paraffin | | | | |
| ELISA | | | | |
| Immunoprecipitation | | | | |
| Western Blotting | | | | |

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures.

| Target Species | Negative Control |
|-----------------------------|---|
| Product Form | Purified IgG - liquid |
| Preparation | Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant |
| Buffer Solution | Phosphate buffered saline |
| Preservative Stabilisers | None present |
| Carrier Free | Yes |
| Endotoxin Level | <0.01 EU/ug |
| | |

| Approx. Protein Concentrations | IgG concentration 1.0 mg/ml |
|--------------------------------|---|
| Immunogen | Human lymphocytes. |
| RRID | AB_567363 |
| Fusion Partners | Spleen cells from immunized DA rats were fused with cells of the rat Y3/Ag1.2.3. myeloma cell line. |
| Specificity | Rat IgG2a Negative Control antibody is suitable for the assessment of the level of non-specific binding of rat IgG2a monoclonal antibodies to mouse cells. |
| | Test results indicate Rat IgG2a Negative Control antibody is also suitable for use as a negative control with canine cells. |
| | N.B. This antibody recognizes a human cell surface marker, and therefore is not suitable as a negative control in human cells or cell lines. |
| Flow Cytometry | Use 10ul of the suggested working dilution to label 1x10 ⁶ cells in 100ul. * It is recommended that the user dilutes the antibody to a concentration equivalent to their test reagent. |
