

Datasheet: MCA1212EL BATCH NUMBER 1701

Description:	RAT IgG2a NEGATIVE CONTROL:Low Endotoxin
Specificity:	RAT IgG2a NEGATIVE CONTROL
Format:	Low Endotoxin
Product Type:	Negative/Isotype Control
lsotype:	lgG2a
Quantity:	0.5 mg

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further						
	information. For general protocol recommendations, please visit <u>www.bio-</u> rad-antibodies.com/protocols.						
		Yes	No	Not Determined	Suggested Dilution		
	Flow Cytometry	•			*		
	Immunohistology - Frozen			•			
	Immunohistology - Paraffin			•			
	ELISA			•			
	Immunoprecipitation						
	Western Blotting						
	Where this antibody has	not been	tested for	use in a particular tec	hnique this does not		
	necessarily exclude its use in such procedures.						
Target Species	Negative Control						
Product Form	Purified IgG - liquid						
Preparation	Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant						
Buffer Solution	Phosphate buffered saline						
Preservative Stabilisers	None present						
Carrier Free	Yes						
Endotoxin Level	<0.01 EU/ug						

Approx. Protein Concentrations	IgG concentration 1.0 mg/ml			
Immunogen	Human lymphocytes.			
RRID	AB_567363			
Fusion Partners	Spleen cells from immunized DA rats were fused with cells of the rat Y3/Ag1.2.3. myeloma cell line.			
Specificity	Rat IgG2a Negative Control antibody is suitable for the assessment of the level of non-specific binding of rat IgG2a monoclonal antibodies to mouse cells.			
	Test results indicate Rat IgG2a Negative Control antibody is also suitable for use as a negative control with canine cells.			
	N.B. This antibody recognizes a human cell surface marker, and therefore is not suitable as a negative control in human cells or cell lines.			
Flow Cytometry	Use 10ul of the suggested working dilution to label 1x10 ⁶ cells in 100ul. * It is recommended that the user dilutes the antibody to a concentration equivalent to their test reagent.
