## Datasheet: MCA1226AMO BATCH NUMBER 148989

Description:	MOUSE ANTI HUMAN CD8:Amethyst Orange				
Specificity:	CD8				
Format:	Amethyst Orange				
Product Type:	Monoclonal Antibody				
Clone:	LT8				
Isotype:	lgG1				
Quantity:	0.1 mg				

### **Product Details**

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further						
	information. For general protocol recommendations, please visit <u>www.bio-</u>						
	rad-antibodies.com/protocols.						
		Yes	No	Not Determined	Suggested Dilution		
	Flow Cytometry	-			Neat - 1/10		
	Where this antibody has not been tested for use in a particular technique this does not						
	necessarily exclude its use in such procedures. Suggested working dilutions are given as						
	for use in their own						
Target Species	Human						
Species Cross Reactivity	Reacts with: Marmoset, Chimpanzee, Cynomolgus monkey, Red-bellied Tamarin <b>N.B.</b> Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.						
Product Form	Purified IgG conjugated to Amethyst Orange - liquid						
Max Ex/Em	Fluorophore	Excitation M	ax (nm)	Emission Max (nm)			
	Amethyst Orange	405		540			
Preparation	Purified IgG prepared by ion exchange chromatography						
Buffer Solution	Phosphate buffered sa	aline					

Preservative Stabilisers	0.09% Sodium Azide (NaN <sub>3</sub> ) 1% Bovine Serum Albumin
Approx. Protein Concentrations	IgG concentration 0.1 mg/ml
Immunogen	Normal human peripheral blood lymphocytes.
External Database Links	UniProt:         P01732       Related reagents         P10966       Related reagents         Entrez Gene:       925       CD8A       Related reagents         926       CD8B       Related reagents
Synonyms	CD8B1, MAL
Fusion Partners	Spleen cells from immunised BALB/c mice were fused with cells of the mouse X63.653 myeloma cell line.
Specificity	Mouse anti Human CD8 antibody, clone LT8 recognizes the human CD8 cell surface glycoprotein expressed by a subset of peripheral blood T cells which express cytotoxic/suppressor activity. It is also expressed weakly on NK cells. The CD8 antigen is a co-receptor for MHC Class I in conjunction with the T cell receptor, and is important in the selection process of CD8+ MHC Class I restricted T cells.
Flow Cytometry	Use 10ul of the suggested working dilution to label 10 <sup>6</sup> cells or cells or 100ul human whole blood.

Storage	Store at +4°C or at -20°C if preferred.
	This product should be stored undiluted.
	Storage in frost free freezers is not recommended. This product is photosensitive and should be protected from light.
	Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10041 available at: https://www.bio-rad-antibodies.com/SDS/MCA1226AMO 10041
Regulatory	For research purposes only
