

Datasheet: MCA1226F BATCH NUMBER 164089

Description:	MOUSE ANTI HUMAN CD8:FITC
Specificity:	CD8
Format:	FITC
Product Type:	Monoclonal Antibody
Clone:	LT8
Isotype:	lgG1
Quantity:	0.1 mg

Product Details

Applications

Target Cassies

11.....

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	•			Neat - 1/5

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

larget Species	Human			
Species Cross Reactivity	N.B. Antibody rearreactivity is derive	moset, Chimpanzee, Cync activity and working condit ed from testing within our I nications from the originaton.	ions may vary betw aboratories, peer-re	een species. Cross eviewed publications or
Product Form	Purified IgG conju	ugated to Fluorescein Isotl	hiocyanate Isomer	1 (FITC) - liquid
Max Ex/Em	Fluorophore	Excitation Max (nm)	Emission Max (nm	n)
	FITC	490	525	
Preparation	Purified IgG preparent	ared by ion exchange chro	omatography from a	ascites
Buffer Solution	Phosphate buffer	ed saline		

Preservative Stabilisers	0.09% sodium azide (NaN ₃) 1% bovine serum albumin	
Approx. Protein Concentrations	IgG concentration 0.1 mg/ml	
Immunogen	Normal human peripheral blood lymphocytes.	
External Database Links	UniProt: P01732 Related reagents P10966 Related reagents Entrez Gene: 925 CD8A Related reagents 926 CD8B Related reagents	
Synonyms	CD8B1, MAL	
RRID	AB_321403	
Fusion Partners	Spleen cells from immunised BALB/c mice were fused with cells of the mouse X63.653 myeloma cell line.	
Specificity	Mouse anti Human CD8 antibody, clone LT8 recognizes the human CD8 cell surface glycoprotein expressed by a subset of peripheral blood T cells which express cytotoxic/suppressor activity. It is also expressed weakly on NK cells. The CD8 antigen is a co-receptor for MHC Class I in conjunction with the T cell receptor, and is important in the selection process of CD8+ MHC Class I restricted T cells.	
Flow Cytometry	Use 10µl of the suggested working dilution to label 10^6 cells or cells or $100\mu l$ human whole blood

Storage

This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.

Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended. This product is photosensitive and should be protected from light.

Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10041 available at: https://www.bio-rad-antibodies.com/SDS/MCA1226F 10041
