Datasheet: MCA1227FT

Description: MOUSE ANTI HUMAN CD42a:FITC

Specificity: CD42a

Other names: GPIX

Format: FITC

Product Type: Monoclonal Antibody

Clone: GRP-P

Isotype: IgG1

Quantity: 25 µg

Product Details

RRID: AB_2263686

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

Target Species

Human

Species Cross Reactivity

Reacts with: Mink, Dog

N.B. Antibody reactivity and working conditions may vary between species.

Product Form

Purified IgG conjugated to Fluorescein Isothiocyanate Isomer 1 (FITC) - liquid.

Max Ex/Em

Preparation

Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant

Buffer Solution

Phosphate buffered saline

Preservative Stabilisers

0.09% Sodium Azide

1% Bovine Serum Albumin

Approx. Protein Concentrations

IgG concentration 0.1 mg/ml

Immunogen

Human red blood cells and platelets.
Spleen cells from immunised BALB/c mice were fused with cells of the mouse NS1 myeloma cell line.

Mouse anti Human CD42a antibody, clone GRP-P recognizes the platelet GPIIX glycoprotein, a 23kDa surface marker expressed by platelets and megakaryocytes. Platelet GPIIX is also known as CD42a.

The CD42 complex is the major platelet receptor for von Willebrand factor.

Use 10µl of the suggested working dilution to label 10⁶ cells or 100µl whole blood.

Store at +4°C or at -20°C if preferred.

This product should be stored undiluted.

Storage in frost free freezers is not recommended. This product is photosensitive and should be protected from light.
Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

**Shelf Life**
18 months from date of despatch
