

# Datasheet: MCA1271T

Description:	MOUSE ANTI HUMAN CD33		
Specificity:	CD33		
Format:	Purified		
Product Type:	Monoclonal Antibody		
Clone:	WM53		
Isotype:	lgG1		
Quantity:	25 µg		

## **Product Details**

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-</u>				
					ww.bio-
	rad-antibodies.com/protocols.				
	Flow Cytometry	Yes	No	Not Determined	Suggested Dilution 1/10 - 1/50
	Immunohistology - Frozen			•	1/10 - 1/30
	Immunohistology - Paraffin		•		
	ELISA			•	
	Immunoprecipitation	-			
	Western Blotting			-	
	Where this product has not been tested for use in a particular technique this does not				
	necessarily exclude its use in such procedures. Suggested working dilutions are given as				•
	a guide only. It is recomn		•		•
	system using appropriate			•	
	, , , , , , , , , , , , , , , , , , , ,	0	•		
Target Species	Human				
Product Form	Purified IgG - liquid				
Preparation	Purified IgG prepared by supernatant	affinity ch	nromatogi	raphy on Protein G fror	m tissue culture
Buffer Solution	Phosphate buffered salin	e			
Preservative Stabilisers	0.09% sodium azide (Na	N <sub>3</sub> )			
Carrier Free	Yes				

Approx. Protein Concentrations	IgG concentration 1.0 mg/ml
Immunogen	Human AML cells
External Database Links	UniProt:         P20138       Related reagents         Entrez Gene:         945       CD33       Related reagents
Synonyms	SIGLEC3
RRID	AB_2074234
Fusion Partners	Spleen cells from immunized BALB/c mice were fused with cells of the mouse NS1 myeloma cell line
Specificity	Mouse anti Human CD33 antibody, clone WM53 recognizes the human CD33 cell surface glycoprotein. This antigen, considered to be specific for the myeloid lineage, has also been reported to be present on cells of lymphoid origin. Mouse anti Human CD33 antibody, clone WM53 immunoprecipitates a protein of ~75 kDa
	from myeloid cells, a smaller protein of approximately 67 kDa has been observed in immunoprecipitates from lymphoid targets.
Flow Cytometry	Use 10µl of the suggested working dilution to label 10 <sup>6</sup> cells
Histology Positive Control Tissue	Lymphatic tissue
Western Blotting	This clone is suitable for use in Western blotting applications. Bio-Rad recommend <u>MCA1271</u> for this purpose.

Storage	This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.	
	Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.	
Guarantee	12 months from date of despatch	
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/MCA1271T 10040	
Regulatory	For research purposes only
