

# Datasheet: MCA1439SBR775

Description:	RAT ANTI MOUSE CD19:StarBright Red 775				
Specificity:	CD19				
Format:	StarBright Red 775				
Product Type:	Monoclonal Antibody				
Clone:	6D5				
lsotype:	lgG2a				
Quantity:	100 TESTS/0.5ml				

# **Product Details**

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .					
		Yes	No	Not Determined	Suggested Dilution	
	Flow Cytometry				Neat	
	Where this product ha	is not been tes	ted for	use in a particular tech	inique this does not	
	necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.					
Target Species	Mouse					
Product Form	Purified IgG conjugated to StarBright Red 775 - liquid					
Max Ex/Em	Fluorophore StarBright Red 775	Excitation Ma	x (nm)	Emission Max (nm) 778		
Preparation	Purified IgG prepared supernatant	by affinity chro	omatogr	aphy on Protein G fror	n tissue culture	
Buffer Solution	Phosphate buffered sa	aline				
Preservative Stabilisers	0.09% Sodium Azide ( 1% Bovine Serum Alb 0.1% Pluronic F68 0.1% PEG 3350 0.05% Tween 20	,				

Immunogen	Human K562 cell line transfected with murine CD19.
External Database Links	UniProt: <u>P25918</u> <u>Related reagents</u> Entrez Gene: <u>12478</u> Cd19 <u>Related reagents</u>
Fusion Partners	Spleen cells from immunised rats were fused with cells of the P3X63.Ag8.653 myeloma cell line.
Specificity	<b>Rat anti Mouse CD19 antibody, clone 6D5</b> recognizes the murine CD19 cell surface antigen, a ~95 kDa glycoprotein expressed by B lymphocytes. Rat anti Mouse CD19 antibody, clone 6D5 recognizes the same, or a closely related epitope as clone Rat anti Mouse CD19 antibody, clone ID3 in cross-competition assays. StarBright Violet 670 conjugated Rat anti Mouse CD19 antibody, clone 6D5
	( <b>MCA1439SBV670</b> ) has been used successfully to label cells in an organ-on-chip platform by immunofluorescence ( <u>Cook <i>et al.</i> 2024 [preprint]</u> ).
Flow Cytometry	Use 5µl of the suggested working dilution to label 10 <sup>6</sup> cells in 100µl. Best practices suggest a 5 minutes centrifugation at 6,000g prior to sample application.

Storage	Store at +4°C. DO NOT FREEZE. This product should be stored undiluted.
Guarantee	12 months from date of despatch
Acknowledgements	This product is covered by U.S. Patent No. 10,150,841 and related U.S. and foreign counterparts
Health And Safety Information	Material Safety Datasheet documentation #20471 available at: https://www.bio-rad-antibodies.com/SDS/MCA1439SBR775 20471
Regulatory	For research purposes only
