

## Datasheet: MCA1447GA

**BATCH NUMBER 163374**

<b>Description:</b>	MOUSE ANTI PIG CD45 ALLOTYPIC VARIANT
<b>Specificity:</b>	CD45 ALLOTYPIC VARIANT
<b>Format:</b>	Purified
<b>Product Type:</b>	Monoclonal Antibody
<b>Clone:</b>	MAC323
<b>Isotype:</b>	IgG2a
<b>Quantity:</b>	0.1 mg

## Product Details

### Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit [www.bio-rad-antibodies.com/protocols](http://www.bio-rad-antibodies.com/protocols).

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	▪			1/25 - 1/100
Immunohistology - Frozen	▪			1/10
Immunohistology - Paraffin	▪			1/10
Immunohistology - Resin (1)	▪			1/10
Immunoprecipitation	▪			

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

**(1) This product requires antigen retrieval using heat treatment of resin sections. This product does not require antigen retrieval prior to staining paraffin sections.**

<b>Target Species</b>	Pig
<b>Product Form</b>	Purified IgG - liquid
<b>Preparation</b>	Purified IgG prepared by affinity chromatography on Protein A
<b>Buffer Solution</b>	Phosphate buffered saline
<b>Preservative Stabilisers</b>	0.09% Sodium Azide (NaN <sub>3</sub> )

<b>Carrier Free</b>	Yes
<b>Approx. Protein Concentrations</b>	IgG concentration 1.0 mg/ml
<b>Immunogen</b>	Porcine peripheral blood lymphocytes
<b>Fusion Partners</b>	Spleen cells from immunized BALB/c mice were fused with cells of the mouse NS1 myeloma cell line
<b>Specificity</b>	<b>Mouse anti Pig CD45 allotypic variant antibody, clone MAC323</b> recognizes an allotypic determinant of porcine CD45, also known as the leucocyte common antigen (LCA). Mouse anti Pig CD45 allotypic variant antibody, clone MAC323 has been shown to recognize CD45 in pigs of the Large White and German Landrace strains. Another antibody, clone <a href="#">K252.1E4</a> , recognizes a monomorphic determinant on porcine CD45. When K252.1E4 is used in conjunction with MAC323, it can be shown that MAC323 stains a subset of the leukocytes that are detected by K252.1E4; indicating a loss of the epitope in MAC323 <sup>-ve</sup> animals rather than loss of the CD45 antigen. Cross-breeding positive vs. negative animals indicate that the MAC323 gene is inherited in a simple Mendelian autosomal dominant pattern ( <a href="#">Binns et al. 1995</a> ).

<b>Storage</b>	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
<b>Guarantee</b>	12 months from date of despatch
