

Datasheet: MCA1456XZ

BATCH NUMBER 159115

Description:	MOUSE ANTI HUMAN CD104:Preservative Free		
Specificity:	CD104		
Other names:	INTEGRIN BETA 4		
Format:	Preservative Free		
Product Type:	Monoclonal Antibody		
Clone:	450-9D		
Isotype:	lgG1		
Quantity:	1 mg		

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	•			1/25 - 1/100
Immunohistology - Frozen (1)	•			1/500 - 1/1000
Immunohistology - Paraffin		•		
ELISA			•	
Immunoprecipitation				
Western Blotting	•			
Immunofluorescence				

Where this product has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.

(1)The epitope recognised by this antibody is reported to be sensitive to formaldehyde fixation and tissue processing. Bio-Rad recommends the use of acetone fixation for frozen sections.

Target Species	Human
Species Cross	Reacts with: Ferret, Mink
Reactivity	Rased on sequence similarity is expected to re

Based on sequence similarity, is expected to react with: Mustelid

N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or

	further information.	
Product Form	Purified IgG - liquid	
Preparation	Purified IgG prepared by affinity chromatography on Protein G from tissue culture supernatant	
Buffer Solution	Phosphate buffered saline	
Preservative Stabilisers	None present	
Carrier Free	Yes	
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml	
Immunogen	Purified alpha6 beta4 integrin from A431 cells.	
External Database Links	UniProt: P16144 Related reagents Entrez Gene: 3691 ITGB4 Related reagents	
RRID	AB_324583	
Fusion Partners	Spleen cells from immunised BALB/c mice were fused with cells of the mouse Sp2/0 myeloma cell line.	
Specificity	Mouse anti Human CD104 antibody, clone 450-9D recognizes the human beta4 integrin, also known as CD104. CD104 is a ~205 kDa glycoprotein which associates with the alpha6 integrin to form the alpha6/beta4 complex. CD104 is expressed on epithelial cells, Schwann cells and various tumor cell lines. Mouse anti Human CD104 antibody, clone 450-9D recognizes an extracellular epitope on the CD104 molecule.	
Flow Cytometry		
	Use 10µl of the suggested working dilution to label 10 ⁶ cells in 100µl	
Histology Positive Control Tissue	Human tonsil

Storage

Store at -20°C only.

This product should be stored undiluted.

Storage in frost free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

Guarantee	12 months from date of despatch
Health And Safety Information	Material Safety Datasheet documentation #10162 available at: https://www.bio-rad-antibodies.com/SDS/MCA1456XZ 10162
Regulatory	For research purposes only
