Datasheet: MCA1539 BATCH NUMBER 151571

Description:	scription: MOUSE ANTI HUMAN CD95		
Specificity:	CD95		
Other names:	FAS		
Format:	Purified		
Product Type:	Monoclonal Antibody		
Clone:	LOB 3/17		
Isotype:	lgG1		
Quantity:	0.2 mg		

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal					
	communications from the originators. Please refer to references indicated for further					
	information. For general		ecomme	idations, please visit w	/ww.bio-	
	rad-antibodies.com/protocols.					
		Yes	No	Not Determined	Suggested Dilution	
	Flow Cytometry	•			1/50 - 1/100	
	Immunohistology - Frozen		•			
	Immunohistology - Paraffin					
	ELISA			•		
	Immunoprecipitation	-			20ug/ml	
	Western Blotting					
	Where this antibody has not been tested for use in a particular technique this does not					
	a guide only. It is recomn system using appropriate			•	for use in their own	
Target Species	Human					
Species Cross Reactivity	Reacts with: Rhesus Monkey N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.					
Product Form	Purified IgG - liquid					
Preparation	Purified IgG prepared by	affinity cl	hromatog	raphy on Protein A		

Buffer Solution	TRIS buffered saline		
Preservative Stabilisers	0.09% Sodium Azide		
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml		
Immunogen	Fusion protein comprising extracellular domain of human Fas linked to human Fc.		
External Database Links	UniProt: <u>P25445</u> <u>Related reagents</u> Entrez Gene: <u>355</u> FAS <u>Related reagents</u>		
_			
Synonyms	APT1, FAS1, TNFRSF6		
RRID	AB_321975		
Fusion Partners	Spleen cells from immunised BALB/c mice were fused with cells of the mouse NSI myeloma cell line.		
Specificity	Mouse anti Human CD95 antibody, clone LOB 3/17 recognizes the human CD95 cell surface antigen, also known as Tumor necrosis factor receptor superfamily member 6, Fas, Apo-1 antigen, Apoptosis-mediating surface antigen FAS or FASLG receptor. CD95 is a 310 amino acid ~40-50 kDa single pass type I transmembrane glycoprotein expressed by activated T and B cells, NK cells and thymocytes. Mutations in the CD95 gene, FAS can lead to the development of Autoimmune lymphoproliferative syndrome 1A (<u>ALPS1A</u>), an apoptotic disorder with early onset resulting in an accumulation of autoreactive lymphocytes (<u>Peters <i>et al.</i> 1999</u>).		
Flow Cytometry	Use 10ul of the suggested working dilution to label 10 ⁶ cells in 100ul.
