

Datasheet: MCA153XZ

| Description:  | MOUSE ANTI RAT CD4 (DOMAIN 2):Preservative Free |  |  |
|---------------|---|--|--|
| Specificity:  | CD4 (DOMAIN 2)                                  |  |  |
| Format:       | Preservative Free                               |  |  |
| Product Type: | Monoclonal Antibody                             |  |  |
| Clone:        | OX-35   |  |  |
| Isotype:      | lgG2a   |  |  |
| Quantity:     | 1 mg  |  |  |

## **Product Details**

#### **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="https://www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

|                            | Yes | No | Not Determined | Suggested Dilution |
|----------------------------|-----|----|----------------|--------------------|
| Flow Cytometry             |     |    |                | 1/50 - 1/100       |
| Immunohistology - Frozen   | •   |    |                |                    |
| Immunohistology - Paraffin |     |    | •              |                    |
| ELISA                      |     |    | •              |                    |
| Western Blotting           |     |    | -              |                    |
| Immunofluorescence         |     |    |                |                    |

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

| Target Species                 | Rat  |                            |
|--------------------------------|--|----------------------------|
| Product Form                   | Purified IgG - liquid  |                            |
| Preparation                    | Purified IgG prepared by affinity chromatography on Protein G from | tissue culture supernatant |
| Buffer Solution                | Phosphate buffered saline  |                            |
| Preservative<br>Stabilisers    | None present   |                            |
| Carrier Free                   | Yes  |                            |
| Approx. Protein Concentrations | IgG concentration 1.0 mg/ml  |                            |
| Immunogen                      | MLR generated rat T helper lymphocytes.                            |                            |
| External Database              | UniProt:   |                            |

|-----------------|--|
| Fusion Partners | Spleen cells from immunised BALB/c mice were fused with cells of the mouse NS1 myeloma cell line.  |
| Specificity     | Mouse anti Rat CD4 (Domain 2) antibody, clone OX-35 recognizes the rat CD4 cell surface antigen, a ~55kDa glycoprotein expressed by helper T cells and weakly by monocytes.  |
|                 | Mouse anti Rat CD4 (Domain 2) antibody, clone OX-35 recognizes a different epitope on the CD4 molecule to Mouse anti Rat CD4 antibody, clone W3/25.  |
| Flow Cytometry  | Use 10ul of the suggested working dilution to label 10 <sup>6</sup> cells in 100ul.  |

# Storage

Store at -20°C only.

This product should be stored undiluted.

Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.

#### **Shelf Life**

18 months from date of despatch.

**Health And Safety** Material Safety Datasheet documentation #10162 available at: Information 10162: https://www.bio-rad-antibodies.com/uploads/MSDS/10162.pdf

Regulatory For research purposes only
