Datasheet: MCA1558 BATCH NUMBER 1114

Description:	MOUSE ANTI PCNA
Specificity:	PCNA
Other names:	PROLIFERATING CELL NUCLEAR ANTIGEN
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	PC10
Isotype:	lgG2a
Quantity:	0.1 mg

Product Details

Applications This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u>.

		Yes	No	Not Determined	Suggested Dilution	
	Flow Cytometry (1)	•			1/100	
	Immunohistology - Frozen	•				
	Immunohistology - Paraffin	•			1/50 - 1/100	
	ELISA			•		
	Immunoprecipitation					
	Western Blotting	-			1/1000	
	Where this antibody has not been tested for use in a particular technique this does not					
	necessarily exclude its us	necessarily exclude its use in such procedures. Suggested working dilutions are given as				
	•		•		•	
	a guide only. It is recommended that the user titrates the antibody for use in their own					
	system using appropriate negative/positive controls.					
	(1) Membrane permeabi	ilisation	is requir	ed for this applicatior	n. Bio-Rad	
	recommends the use of	f Leucop	erm™ (P	roduct Code BUF09)	for this purpose.	
			(.			
Target Species	Rat					
iai got opooloo	Nat					
Species Cross	Reacts with: Ferret, Chic	ken, Rab	bit, Xenoj	ous, Mouse, Horse, Sh	eep, Dog, Cat,	
Reactivity	Cynomolgus monkey, Rhesus Monkey, Hamster, Atlantic Salmon, Human, Bearded					
	Dragon, Corn Snake, Nile Crocodile					
	Based on sequence similarity, is expected to react with:Vertebrates, Invertebrates					
	N.B. Antibody reactivity and working conditions may vary between species. Cross					
	reactivity is derived from	testing w	ithin our l	aboratories, peer-revie	wed publications or	
	personal communications	-		•	•

	further information.			
Product Form	Purified IgG - liquid			
Buffer Solution	Phosphate buffered saline			
Preservative Stabilisers	0.09% Sodium Azide			
Carrier Free	Yes			
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml			
Immunogen	Rat PCNA made in the protein A expression vector pR1T2T			
External Database Links	UniProt: <u>P04961</u> <u>Related reagents</u> Entrez Gene: <u>25737</u> Pcna <u>Related reagents</u>			
RRID	AB_324955			
Specificity	 Mouse anti PCNA antibody, clone PC10 recognizes the proliferating cell nuclear antigen, also known as PCNA or cyclin. PCNA is a 261 amino acid ~28 kDa nuclear protein vital for cellular DNA synthesis at the replication fork (Li <i>et al.</i> 1995) through its interaction with FEN1 (Wu <i>et al.</i> 1996). PCNA is the auxilliary protein for DNA polymerase δ (Bravo <i>et al.</i> 1987). PCNA is highly conserved between mammalian species and other vertebrates. Mouse anti PCNA antibody, clone PC10 has been used for the detection of PCNA in a number of species including human, rat, mouse (Park <i>et al.</i> 2008), chicken (Franz-Odendaal 2008) and abalone (Harris <i>et al.</i> 2006). 			
Flow Cytometry	Use 10ul of the suggested working dilution to label 1×10^6 cells in 100ul.			
Immunohistology	This product does not require protein digestion pre-treatment of paraffin sections. This product does not require antigen retrieval using heat pre-treatment prior to staining of paraffin sections.			
Histology Positive Control Tissue	Tonsil

Storage Store at +4°C or at -20°C if preferred.

This product should be stored undiluted.

Storage in frost-free freezers is not recommended. Avoid repeated freezing and thawing

	as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.	;
Guarantee	12 months from date of despatch	
Health And Safety Information	Material Safety Datasheet documentation #10040 available at: https://www.bio-rad-antibodies.com/SDS/MCA1558 10040	
Regulatory	For research purposes only
