

Datasheet: MCA1577

Description:	MOUSE ANTI MBP (pThr98)
Specificity:	MBP (pThr98)
Other names:	MYELIN BASIC PROTEIN
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	98P/12
Isotype:	IgG2a
Quantity:	0.1 mg

Product Details

Applications

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit www.bio-rad-antibodies.com/protocols.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry			▪	
Immunohistology - Frozen	▪			
Immunohistology - Paraffin			▪	
ELISA	▪			
Immunoprecipitation			▪	
Western Blotting	▪			

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls.

Target Species	Human
Product Form	Purified IgG - liquid
Buffer Solution	Phosphate buffered saline
Preservative Stabilisers	0.09% Sodium Azide
Approx. Protein Concentrations	IgG concentration 1 mg/ml
Immunogen	Synthetic peptide from human myelin basic protein sequence, phosphorylated on threonine 98 with the sequence FFKNIVTPR(pT)PPPSQGK.

External Database Links	UniProt: P02686 Related reagents Entrez Gene: 4155 MBP Related reagents
RRID	AB_323310
Specificity	Mouse anti MBP (pThr98) antibody, clone 98P/12 recognizes myelin basic protein (MBP), also known as myelin A1 protein and myelin membrane encephalitogenic protein, when phosphorylated at threonine 98. The numbering of the threonine residue refers to UniProt entry : P02686-5 . Myelin basic protein Isoform 5, a truncated form of MBP lacking the N-terminal residues. The equivalent threonine in the canonical isoform 1 is thr232.

Storage	<p>This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C.</p> <p>Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.</p>
Guarantee	12 months from date of despatch
