

Datasheet: MCA1744A647

### **BATCH NUMBER 1807**

Description:	MOUSE ANTI HUMAN CD66e:Alexa Fluor® 647
Specificity:	CD66e
Other names:	CEA
Format:	ALEXA FLUOR® 647
<b>Product Type:</b>	Monoclonal Antibody
Clone:	C365D3 (NCRC23)
Isotype:	lgG1
Quantity:	100 TESTS/1ml

# **Product Details**

### **Applications**

This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="www.bio-rad-antibodies.com/protocols">www.bio-rad-antibodies.com/protocols</a>.

	Yes	No	Not Determined	Suggested Dilution
Flow Cytometry	-			Neat - 1/10

Where this antibody has not been tested for use in a particular technique this does not necessarily exclude its use in such procedures. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls

arget Species	Human	Human				
Product Form	Purified IgG conjugat	Purified IgG conjugated to Alexa Fluor 647 - liquid				
ax Ex/Em	Fluorophore	Excitation Max (nm)	Emission Max (nm			
	Alexa Fluor®647	650	665			
eparation	Purified IgG prepared by affinity chromatography on Protein G from tissue of supernatant					
fer Solution	Phosphate buffered saline					
servative	0.09% Sodium Azide	(NaN <sub>3</sub> )				
abilisers	1% Bovine Serum All	1% Bovine Serum Albumin				
prox. Protein	IgG concentration 0.0	05 mg/ml				

#### Concentrations

#### **Synonyms**

CEA

#### **Fusion Partners**

Spleen cells from immunised BALB/c mice were fused with cells of the mouse P3NSI myeloma cell line.

### **Specificity**

Mouse anti Human CD66e antibody, clone C365D3 (NCRC23) recognizes human Carcinoembryonic antigen-related cell adhesion molecule 5, also known as CD66e, carcinoembryonic antigen, Meconium antigen 100, CEA or CEACAM5. CD66e is a 702 amino acid ~77 kDa GPI anchored membrane protein containing 7 <u>Ig-like domains</u>. Mouse anti Human CD66e antibody, clone C365D3 does not cross-react with normal cross-reacting antigen (CD66c), or with biliary glycoprotein 1 (CD66a) as indicated by binding assays (<u>Price 1988</u>, note: in this study Mouse anti Human CD66e antibody, clone C365D3 is designated as clone 6 (from author)).

#### Flow Cytometry

Use 10ul of the suggested working dilution to label 10<sup>6</sup> cells in 100ul

#### Storage

Store at +4°C or at -20°C if preferred.

Storage in frost-free freezers is not recommended.

This product should be stored undiluted. This product is photosensitive and should be protected from light.

Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use

#### Guarantee

12 months from date of despatch

### Acknowledgements

This product is provided under an intellectual property licence from Life Technologies Corporation. The transfer of this product is contingent on the buyer using the purchased product solely in research, excluding contract research or any fee for service research, and the buyer must not sell or otherwise transfer this product or its components for (a) diagnostic, therapeutic or prophylactic purposes; (b) testing, analysis or screening services, or information in return for compensation on a per-test basis; (c) manufacturing or quality assurance or quality control, or (d) resale, whether or not resold for use in research. For information on purchasing a license to this product for purposes other than as described above, contact Life Technologies Corporation, 5791 Van Allen Way, Carlsbad CA 92008 USA or outlicensing@thermofisher.com
