

Datasheet: MCA1757 BATCH NUMBER 148636

Description:	MOUSE ANTI HUMAN MYELOPEROXIDASE
Specificity:	MYELOPEROXIDASE
Format:	Purified
Product Type:	Monoclonal Antibody
Clone:	2C7
Isotype:	lgG1
Quantity:	0.2 mg

Product Details

Applications	This product has been reported to work in the following applications. This information is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information. For general protocol recommendations, please visit <u>www.bio-rad-antibodies.com/protocols</u> .				
	<u></u>	Yes	No	Not Determined	Suggested Dilution
	Flow Cytometry (1)	•			1/50 - 1/100
	Immunohistology - Frozen	•			1/1000 - 1/5000
	Immunohistology - Paraffin	•			1/500 - 1/1000
	ELISA	•			
	Immunoprecipitation			•	
	Western Blotting (2)	•			
	a guide only. It is recommended that the user titrates the antibody for use in their own system using appropriate negative/positive controls. (1) Membrane permeabilisation is required for this application. Bio-Rad recommends the use of Leucoperm [™] (Product Code <u>BUF09</u>) for this purpose. (2)2C7 recognises myeloperoxidase under non-reducing conditions, see <u>Audrian et</u> <u>al.</u> for details				
Target Species	Human				
Species Cross Reactivity	Reacts with: Dog Does not react with:Rat N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.				

Product Form	Purified IgG - liquid			
Preparation	Purified IgG prepared by affinity chromatography on Protein A			
Buffer Solution	Phosphate buffered saline			
Preservative Stabilisers	0.09% Sodium Azide			
Carrier Free	Yes			
Approx. Protein Concentrations	IgG concentration 1.0 mg/ml			
Immunogen	Human myeloperoxidase			
External Database Links	UniProt: <u>P05164</u> <u>Related reagents</u> Entrez Gene: <u>4353</u> MPO <u>Related reagents</u>			
RRID	AB_2146467			
Fusion Partners	Spleen cells from immunized mice were fused with cells of the mouse X63 AG8-653 myeloma cell line			
Specificity	 Mouse anti Human myeloperoxidase antibody, clone 2C7 recognizes human myeloperoxidase (MPO). MPO is an important component of azurophilic granules in neutrophils, being involved in microbicidal processes. The protein is a multimer of 2 heavy chains (55 kDa) and two light chains (15 kDa), the heavy chains being linked by a disulphide bond. Mouse anti Human Myeloperoxidase antibody, clone 2C7 recognizes native MPO in Western blots, and the heavy chain following boiling of the sample. Mouse anti Human Myeloperoxidase antibody, clone 2C7 recognizes native MPO in Western blots, and the heavy chain following boiling of the sample. Mouse anti Human Myeloperoxidase antibody, clone 2C7 also recognizes recombinant MPO in western blots and weakly in ELISA. Mouse anti Human myeloperoxidase antibody, clone 2C7 may be of value in the study of myeloid cells and myeloid leukaemias by flow cytometry following cell permeabilization. Mouse anti Human myeloperoxidase antibody, clone 2C7 did not recognize rat MPO by ELISA (Patry <i>et al.</i> 2003). 			
Histology Positive Control Tissue	Bone marrow

Storage	Store at +4°C or at -20°C if preferred.
	This product should be stored undiluted.
	Storage in frost free freezers is not recommended. Avoid repeated freezing and thawing
	as this may denature the antibody. Should this product contain a precipitate we
	recommend microcentrifugation before use.
Guarantee	12 months from date of despatch
Health And Safety	Material Safety Datasheet documentation #10040 available at:
